

Mei Ta Europe Ltd. is a Taiwanese company that manufactures turbine housings and exhaust manifolds – we work with OEMs and Tier-1 suppliers of turbocharger and exhaust system components. MTE production facility is located in Serbia, in Barič, Obrenovac, where our nearly 3,000 employees make the best job possible every single day.

Mei Ta Europe located in Barič is looking for employees of the most diverse profiles, people ready to get an education at the beginning, during or at the end of their career, learn something new and perhaps redirect to occupations that are in high demand, such as

## *CNC operator*

### About the job:

The abbreviation CNC machine means Computer Numerical Control machine. Basic steps of work include placing the product in the fixture, adjusting the cutting tools, starting the machine, taking the machined product out and inspecting it, ie. measuring machined surfaces according to defined frequency.

The work is not difficult, men and women of all ages can do it. Once you master it, the main thing you always have to watch out for is the accuracy of the measurements.

### About you:

- To know basic mathematical operations, especially addition and subtraction of decimals numbers.
- We test all candidates, i.e. we give several tasks for them to solve (every high school student can help you prepare for that test - a little practice is enough). Example task: Calculate  $96 \pm 0.5$ .
- We work in shifts. Shifts last 8 hours, and we also have working Saturdays that are paid as overtime.

### We offer:

- Good and secure job in a stable company
- Full salary during training
- Paid transportation, meal and holiday allowance
- Opportunity to advance, if you want it

### How to apply:

We are looking forward to receiving your application at [kandidati@meitaeu.com](mailto:kandidati@meitaeu.com)
